To Whom It May Concern

Re: PREPARATION GUIDELINES FOR THE CONTROL OF BEDBUGS #1

Advanced Pest Control will be servicing your premises for the control of bedbugs on _____.
Application start time is _____.

The following preparations will be necessary **PRIOR TO PEST CONTROL TREATMENT.**

Kitchen: Remove all food items, dishes and utensils from kitchen counter tops and place them inside the fridge, stove or kitchen cabinets.

Bathroom: Remove all items from the top of the counter top and place them inside the vanity or in the bathtub.

Fish Tanks: Make sure all pumps are shut off and seal all openings of the tank with plastic.

General: All fabric items including clean and dirty clothes, blankets, sheets, towels and stuffed animals, etc. must be dried in a dryer for 1 hour and placed in sealed plastic bags, totes or a sealed container. All furniture must be moved one foot away from the walls. The floor must be clear of all toys and small items. All live plants must be covered with plastic. Do **NOT** place any items on beds or sofas. Luggage like suitcases or handbags must be empty and unzipped.

Important: All occupants must leave the premises for 4 hours from time of completion. Where pregnancies, allergies, illness, or children under 1 year old or other unusual circumstances prevail, occupants may be required to remain out of the premises for 12 to 24 hours.

This procedure must be repeated in 10 to 14 days after first treatment.

If you have any concerns regarding your health, contact your personal physician.

Re-entry: Please ensure that all vanity and counter tops, cutting boards, fridge, stove tops are thoroughly washed with soap and water prior to placing any items back on them. Do not vacuum or wash floors 6" from the wall for 30 days after the last application if at all possible.

2nd application will be on _____.

**Thank you for your co-operation.
