Re: Preparation Guidelines For The Control Of Stored Product Pests #4

Advanced Pest Control will be servicing your premises for the control of stored product pests on _____. Please make arrangements to vacate the premises by _____, until _____.

The following preparations will be necessary Prior to Pest Control Treatment.

Kitchen: Remove all items including food, dishes and utensils from kitchen cupboards and drawers, refrigerator top and stove top and place on kitchen table or on living room floor. Cover all items with plastic, blankets or sheets.

Bathroom: Remove all items from underneath bathroom sink(s) to allow access to drain pipes.

Fish Tanks: Make sure all pumps are shut off and seal all openings of tank with plastic or a sheet.

General: Inform technician if beetles have been sighted in any other rooms. Prepare these rooms by picking up all clothes, toys and other miscellaneous items on the floor and place them on the bed or sofas.

Occupants and Pets : must vacate the premises for a period of ___5___ hrs from the time treatment commences.

Important: Where pregnancies, allergies, illness or other unusual circumstances prevail, occupants may be required to remain out of the premises for a longer period of time.

Chemical to be used: _____ at _____%. P.C.P.# _____

If you have any concerns regarding your health, contact your personal physician.

Re-entry: Please insure that all vanity and counter tops, cutting boards, fridge and stove tops are thoroughly washed with soap and water prior to placing any items back on them. Cupboard shelves and drawers must **not** be washed for a period of (30) days. Shelving paper or newspaper should be placed on the shelves in the cupboards and drawers before any items are returned. All dishes should be stored upright on the shelves. After (30) days wash cupboards with soap and water.

**Thank you for your co-operation.
